

International Laboratory for
Brain, Music, and Sound Research

Auditory Cognitive Neuroscience Symposium

April 16th 2010

BRAMS, International Laboratory for Brain, Music & Sound Research, is pleased to announce a full-day symposium on Auditory Cognitive Neuroscience. This free event will be held one day before the Cognitive Neuroscience Society meeting, in the Jeanne Timmins Auditorium, Montreal Neurological Institute, from 9am to 4pm.

This event is co-sponsored by NSERC-CREATE training grant in Auditory Cognitive Neuroscience, as well as the Montreal Neurological Institute.

Session 1. "Neural Coding in the Auditory Cortex"

Claude Alain, Rotman Research Institute | **Evan Balaban**, McGill University | **Tobias Overath** New York University, USA | **Marc Schoenwiesner** Université de Montréal

Session 2. "Emotional Communication by Sound"

Jorge Armony McGill University | **Hauke Egermann** McGill University | **Sarah Wilson** University of Melbourne, Australia | **Teppo Särkämö** Helsinki University, Finland | **Pascal Belin** University of Glasgow, Scotland

Session 3. "Sensorimotor Integration"

Caroline Palmer McGill University | **Bruno Giordano** McGill University | **Virginia Penhune** Concordia University | **Patrice Voss** McGill University | **David Poeppel** New York University, USA

The Symposium will be held at the
Jeanne Timmins Auditorium
Montreal Neurological Institute
3801 University Street
Montreal, Quebec H3A 2B4
